Gilgai 340 Tour

The Gilgai 340 Tour is reminiscent of 70's style NSW Rallies and still practised today.
Navigation will be Shortest Mapped Route.
The Google Maps format used by Ian Richards in his Dubbo, Griffith & Tamworth Tours will be used, with the addition of you identifying any alignments along the way, just as you would in on road event.
Lots of long straight roads, only a short section of forest road should make marking of roads less time consuming.
Gilgai: Small water hole, A Gilgai rarely holds water, as it is distinguished by deep fissures in the clay. Experiments to try to fill a Gilgai usually fail, as the water disappears down the fissures faster than it can be filled. Source Macquarie Dictionary.com.au
340 = Miles
Supp Regs are available from;
http://hrcnsw.org.au/future-events/gilgai-340-tour/
Event will be conducted from 6.00 pm Thursday 18th June 2020 to 6.00 pm Thursday 25th June 2020.
